

PROJECTS IN THE SPOTLIGHT

February 2012

Ferrari World Theme Park, Yas Island, United Arab Emirates

The world's largest indoor and first Ferrari theme park located in Abu Dhabi, UAE chose Monoglass Spray-On insulation for both thermal and acoustic purposes on the massive ceiling area and throughout the main building. The design team has chosen to use charcoal tinted Monoglass in order for it to blend into the background. Three inches of Monoglass was installed over metal decking to provide an R-value of 12 and an NRC rating in excess of 0.95. The park features an indoor Ferrari themed race track along with 25 other attractions. For more information visit www.ferrariworldabudhabi.com

A.E. Wood Coliseum at Mississippi College.

One of the biggest advantages of Monoglass is the ability to adhere to any surface configuration. There is no better example of this than the A.E. Wood Coliseum at Mississippi College.

The dome structure could hardly be insulated with anything other than a sprayed product. Monoglass was chosen to provide both thermal and acoustic improvements to this space.

Brown's Social House

Monoglass Spray-on was installed using charcoal tinted adhesive at Brown's Social House restaurant to reduce noise reverberation within the restaurant and also between this space and the condominium apartments in the tower above.

PROJECTS IN THE SPOTLIGHT

February 2012

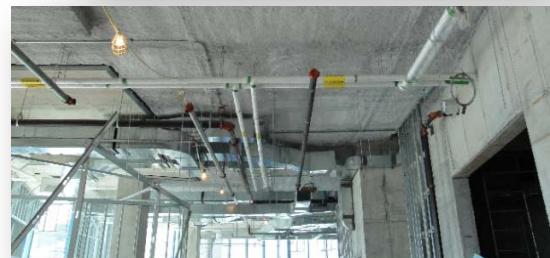

Corus Quay Headquarters, Toronto, Canada

Corus Quay, Corus Entertainment's new Toronto headquarters consolidates together 11 independent Toronto-based operations, including 24 television services, three Toronto radio stations and over 1,100 employees.

Sonoglass Acoustic Finish was chosen over the other specified products for its cost, appearance, low VOC content and other competitive advantages. It was installed throughout the offices and blends in very well with the grey concrete substrate. Additions to the Quay will see more Sonoglass being installed in spring of 2012.

Monoglass Spray-On Insulation has recently also been installed in the following projects:

- Atlanta Airport, Atlanta, Georgia
- Fed-Ex Headquarters, Memphis, Tennessee
- McLeod Hospital, Florence, South Carolina
- Lighthouse Park, Biloxi, Mississippi
- IKEA, Ottawa, Ontario
- Wal-Mart, Scarborough, Ontario
- VA Hudson Valley Health Care, Montrose, New York
- Wells Hall, Westland, Michigan
- Fort Campbell SOF IV, Fort Campbell, Kentucky
- Children's Aid Society, Kingston, Ontario
- Rosetta Square, Overland Park, Kansas
- South Oaks Library, Oklahoma City, Oklahoma
- Alliance Nebraska High School, Alliance, Nebraska
- TCU Amon Carter Football Stadium West Expansion, Forth Worth, Texas
- Bailly Generating Plant, Chesterton, Indiana
- CFCC Union Station Parking Deck, Wilmington, North Carolina
- Elizabeth Seton Pediatric Center, Yonkers, New York
- Lanenau Hospital Facility Project, Wynnewood, Pennsylvania
- Northwood School, Minong, Wisconsin
- University of South Carolina, Paterson Hall, Columbia, South Carolina
- Love Field Airport New Terminal, Dallas, Texas
- Forest Park Medical Center, Frisco, Texas
- Hendrick Medical Center, Abilene, Texas
- Tarrant County Community College North Campus, Fort Worth
- Lady Bird Johnson Middle School, Irving, Texas
- UNT Football Stadium, Denton, Texas
- Kathryn Joy Gilliam Elementary, Dallas, Texas
- Baylor Medical Center, McKinney & Baylor Cancer Center, Dallas, Texas
